www.astracademy.net

Target groups:

- Organizations certified to FSC standards, interested in using the FSC Trademarks on product or for promotional purposes.
- Certification Body Auditors who check compliance by certified organizations with FSC requirements for the use of the Trademarks.
- Certification Body Auditors and Staff in charge of FSC Logo Approvals.

E-learning on the ASTRAcademy platform

Trainees will enroll on the AB Training platform via ASTRAcademy.net following the link "enroll in a course", and marking on the registration form the box corresponding to the course

The Correct Use of the FSC Trademarks by Certificate Holders FSC-STD-50-001.

After successful registration, trainees will receive a user name and password, and they will login on ASTRAcademy.net following the link "student login". Additionally, trainees receive a link where they can download all

background documentation relating to the course. Trainees are expected to study the relevant background documentation before they take the individual modules and quizzes of the online course.

Course description

This brief online course presents the content of the latest version of the FSC International Standard FSC-STD-50-001, Requirements for use of the FSC Trademarks by Certificate Holders.

Additionally, the course presents several cases of trademark use for trainees' review and analysis and explains how organizations certified to FSC standards can design and download their labels and promotional use of the FSC Trademarks, according to the specific needs, types of production and FSC products.

The course facilitates the uptake of the necessary knowledge and skills for qualifying as person in charge of logo approvals. We hope that with more individuals qualified for logo approvals, certification bodies can de-centralize this activity and manage more efficiently the workload relating to the approval of labels and promotional use by their clients.
